Traced Location in Country of Origin

The earliest known ancestor in England is Francis Langton of York, Yorkshire. He was born about 1680. He had six known children; Thomas, Jane, Susanna, Francis, William and Jane.

The Lawty Langton who came to Canada was his 2x great grandson. The line of descent is as follows:

- Francis Langton of York, Yorkshire.
- Francis Langton of Folkton, Yorkshire.*
- William Langton of Folkton, Yorkshire.
- Thomas Langton of Staxton, Yorkshire.
- Lawty Langton of Fordan, Yorkshire.

St John the Evangelist is the local church parish.

*The “Langtons of East Flamboro, Ontario” are related to the “Langtons of West Flamboro, Ontario” thru their most recent common ancestor Francis Langton of Folkton, Yorkshire. Lawty came to Canada at about same time as his 2nd cousin James. Refer to my article “Langtons of West Flamboro, Ontario” for details regarding James D. Langton’s Family.

Prosperity in Canada

Today, it is very difficult to estimate the number of descendants from these Langtons. Since Lawty and Mary Ann came to Canada early enough (c1850) and had many children (8), one might expect that at least 1/12 of all the Langtons in Canada would be descended from Lawty and Mary Ann. However, only one member could be contacted living in Ontario. Therefore, there is insufficient data.

DNA – Haplogroup

There is no DNA data available for this Langton family in Canada. Perhaps you can be the very first to unlock the mysteries of this family's ancestral origins in England.

If you are a male descendant and would like to learn more about genetic genealogy, I invite you to visit: ANCESTRY for their DNA Information: <http://dna.ancestry.com/learnMorePaternal.aspx>
LOST LANGTONS for their DNA Project: <http://www.lostlangtons.co.uk/LangtonDNAProject.shtml>

If you wish to participate in LOST LANGTONS DNA Project, please feel free to contact me for help (see my contact information at the end of this article). I will personally arrange to provide you or your male relative with a Y-Chromosome 46 Marker Test from ANCESTRY for only \$125.00USD. This is a 30% savings on the currently advertised price. When the test is complete, I will personally submit your data for review by my friends at LOST LANGTONS. They will analyze your data and attempt to locate your village of origin; maybe even back to 13th Century England.
