

## LANGTONS OF YORK, ONTARIO

### **Arrival in Canada**

Thomas Langton is the patriarch of this family in Canada. This is his story...

Thomas Langton was born about 1801 in Sligo, Ireland. He died between 1871 and 1877 in Toronto, Canada. He married Ann Carter about 1825 in Ireland. She was born about 1802 in Ireland. She died on 20 Sep 1877 in York, Ontario, Canada. Together they had four children who came with them to Canada. They may have had more who stayed in Ireland.

Thomas Carter Langton was born on 24 Jun 1832 in Sligo, Ireland. He died on 11 May 1909 in York, Ontario, Canada. He married (1) Maria Harris on 05 Sep 1853 in Montreal, Quebec, Canada. He married (2) Fanny McKinn on 18 Nov 1866 in York, Ontario, Canada. He married (3) Elizabeth E. Peister on 17 Sep 1891 in Toronto, Canada.

Elizabeth Langton was born on 15 Nov 1834 in Sligo, Ireland. She died on 30 Aug 1901 in York, Ontario, Canada. She married John Church about 1857. He was born on 13 Nov 1833 in Ireland. Their son Thomas Langton Church was Mayor of Toronto from 1915 to 1921. He was elected to the Canadian House of Commons in the 1921 election as a Conservative from the riding of Toronto North. He was defeated in the 1930 election, but was re-elected in 1934 and remained in office until his death.

Patrick Langton was born on 24 Jan 1840 in Ireland. He died on 30 Oct 1905 in York, Ontario, Canada. He married Louisa Jackson on 21 Nov 1865 in Quebec, Quebec, Canada. She was born on 11 Oct 1842 in Quebec, Quebec, Canada.

Rebecca Langton was born on 24 Nov 1842 in Ireland. She died on 06 Feb 1927 in York, Ontario, Canada. She married William Augustus Poole on 05 Dec 1871 in Toronto, Ontario, Canada. He was born about 1835 in England.

Thomas L. Church (1870-1950)

## Traced Location in Canada

Thomas Langton, Ann Carter and four of their children came to Canada between 1848 and 1859. They settled in the Township of York, Ontario (in the present day Toronto area).

### Present day Toronto, Ontario

## Traced Location in Country of Origin

Thomas Langton of Sligo, Ireland, is a descendant of Charles Langton and Jane Unknown. Charles was in Lord Deputy Fleetwoods Army and was Killed in Ireland circa 1649, according to the book “The Langtons of Langton” by Charles Langton, Jersey, 1929.

### Co. Sligo, Ireland

## Prosperity in Canada

Not a single descendant of this family could be contacted. One might expect a few to still be living in the Province of Ontario. They would most likely be descendants of Thomas Carter Langton (1832-1909). He had one son, Thomas, with his first wife Maria Harris and two sons, Joseph and William, with his second wife Fanny McKinn.

## DNA – Haplogroup

There is no DNA data available for this Langton family in Canada. Perhaps you can be the very first to unlock the mysteries of this family's ancestral origins in Ireland.

If you are a male descendant and would like to learn more about genetic genealogy, I invite you to visit: ANCESTRY for their DNA Information: <http://dna.ancestry.com/learnMorePaternal.aspx>  
LOST LANGTONS for their DNA Project: <http://www.lostlangtons.co.uk/LangtonDNAProject.shtml>

If you wish to participate in LOST LANGTONS DNA Project, please feel free to contact me for help (see my contact information at the end of this article). I will personally arrange to provide you or your male relative with a Y-Chromosome 46 Marker Test from ANCESTRY for only \$125.00USD. This is a 30% savings on the currently advertised price. When the test is complete, I will personally submit your data for review by my friends at LOST LANGTONS. They will analyze your data and attempt to locate your village of origin; maybe even back to 13<sup>th</sup> Century England.

Discover your genetic genealogy and ancient ancestry with a DNA cheek-swab test

**Paternal Lineage DNA Test (Y-Chromosome 33 or 46)** US \$149 - \$179 [Select](#)

Your father's father's father's father is just waiting to give you a hand with your family history. The DNA handed down from father to son through generations helps you connect with genetic cousins.

- Begin matching with genetic cousins to grow your family tree.
- Participate in DNA Groups and compare levels of relatedness.
- Learn the story of your most ancient paternal ancestry from up to 100,000 years ago, complete with photos and a description of the likely life of your people.
- Connect with others who share your ancient ancestry.
- Learn more about [paternal testing](#).

Note: only males can take this test, but females can ask a father, brother, paternal uncle or nephew to take it for them.

**Please note: You will not receive a percentage breakdown of your ethnicity, race or geographic origin with a Paternal Lineage DNA test.**
